

09/03/18

For Immediate Release

**CSU and u!magine kick off
“We !magine” season
Renowned UK Educator, Dr. Rebecca Ferguson
Explores Data & Learning: Future Visions
Riverina TAFE March 15**

09/03/18 Wagga Wagga - The u!magine unit, of CSU is kicking off the first of three “we !magine” series in Wagga, March 15. This first series focuses on “Data & Learning: Future Visions.” Academics and teachers from all organizations will get an opportunity to hear Dr. Rebecca Ferguson, in person on March 15th 4:00-5:30 pm at TAFE Room D2.04, Level 2 Block D. Dr Ferguson is a renowned expert from the Open University of the UK and will look at the role data plays in learning, ethics and privacy in many areas of education. She will explore the questions of how can we use data for “good” and what do we need to consider as the field evolves in the future?

Come with your curiosity and questions to this free presentation, and find out how data and learning analytics will impact your students and your profession. This event, is bound to interest teachers, administrators and those involved in teaching and learning whatever the grade or level.

This event is the first of several free professional community events being hosted by u!magine in collaboration with a number of CSU and industry/community partners as part of its ‘we!magine Series’ for 2018. “we!magine” will explore the potential application of a range of digital technologies to support online innovation in a variety of industry, community and academic contexts. Keep your eyes open over the year, to attend the events on data analytics, drone technologies, augmented reality and more.
